

SYSTEM, METHOD AND COMPUTER PROGRAM PRODUCT FOR A TRANSCRIPTION GRAPHICAL USER INTERFACE

ABSTRACT

A system, method and computer program product are afforded for providing a transcription graphical user interface. Initially, an utterance icon is displayed for prompting the emission of an utterance via a speaker upon the selection thereof. Further, a transcription field is depicted for allowing entry of a transcription of the utterance utilizing a keyboard. In use, the present transcription graphical user interface is displayed using hypertext markup language (HTML).
